Other laser printer models are also compatible with the MF4000 including OKI, Lexmark, Samsung, Kyocera and other HP models. Please check with us for suitability.

Please note the following:

* *The laser printer is not unique to this machine; it can still be used as a normal office laser, either by separating the laser printer from the MF4000 or by using the optional 'Print Only Mode'.*

Print Only Mode enables the system to be used as a standard laser printer without the need to separate the laser from the MF4000.

* *Please note that 14" Z fold forms are compatible using an optional replacement drum that is dedicated to 14" Z and A4 Z folds only.*

* *The processing speed of the system is regulated by the page per minute speed of the printer.*

* *All prices above exclude laser printer, although we are able to supply quotation if required.*
