

MF4000TN 350

MailFinisher4000N with
Cabinets & HP4515N

MailFinisher4000 with HP4350TN

The MailFinisher 4000 system is a small to medium volume In-Line System which is interfaced with a compatible laser printer, whereby the printer feeds the MF4000 directly and the forms are printed, folded and sealed in one single operation, therefore, speeding up the processing and also making it easier for the operator.

The MF4000TN350 is provided with a sliding base-mount and a 350 forms external output catch tray. The system requires a full desktop space to locate the machine and laser printer.

Optional cabinets are available which will provide a suitable surface for the whole system and also storage beneath.

The system is compatible with the following printers which provide up to 1,000 sheet in-feed capacity (based on 80gsm paper).

HP LJ4200TN	HP LJ4515TN
HP LJ4250TN	HP LJ4015TN
HP LJ4300TN	HP LJ4014TN
HP LJ4350TN	

PLEASE NOTE: The Kyocera FS4000DTN Printer is NOT an option with the MF4000TN350.

Other laser printer models are also compatible with the MF4000 including OKI, Lexmark, Samsung, Kyocera and other HP models. Please check with us for suitability.

Please note the following:

* The laser printer is not unique to this machine; it can still be used as a normal office laser, either by separating the laser printer from the MF4000 or by using the optional 'Print Only Mode'.

Print Only Mode enables the system to be used as a standard laser printer without the need to separate the laser from the MF4000.

* Please note that 14" Z fold forms are compatible using an optional replacement drum that is dedicated to 14" Z and A4 Z folds only.

* The processing speed of the system is regulated by the page per minute speed of the printer.

* All prices above exclude laser printer, although we are able to supply quotation if required.
