

MailFinisher 9500 AFS

The Ultimate Hi-Speed, Hi-Tech In-Line Pressure Sealer from the UK's leading provider.

The MailFinisher 9500AFS is the ultimate solution for in-line processing of pressure seal documents whether processing 500 or 200,000 forms per month. Utilising our proven in-line processing technology, when interfaced with a Hi-Speed Multifunction Copier or Hi-Speed Printer, you are assured of a Super Fast, Easy and Reliable solution.

The 9500AFS is fitted with a Double Document Detection and Bypass System, making light work of any double fed documents that may occur. It also has Four Roller Sealing for excellent seal quality and an Auto Extending Output Conveyor for easy trouble free unloading of your finished documents. Locking Security Covers are also included for complete peace of mind when processing secure applications. A height adjustable table is also included to interface with many high speed multifunction copier/printers.

When using a Duplex capable print system, the 9500AFS will fold all common fold types such as Z, V and C-fold, providing personalisation to both sides of your documents where required.

So if you're looking for a low cost per copy solution with minimal operator intervention and great reliability, then look no further, the MailFinisher 9500AFS has it all !
